Independent auditor's report to the shareholder of  
**ASI Global Ltd.**  
**Port Louis (Mauritius)**

**Report on the financial statements:**

We have audited the accompanying financial statements of ASI Global Ltd. ('the company') for the financial year ended 31st March 2016 comprising of statement of financial position as at 31st March 2016, related statement of comprehensive income, statement of changes in equity & shareholder's funds and statement of cash flows for the year then ended as set out on pages 5 to 8 and read along with notes to the financial statements on pages 9 to 18.

**Management's responsibility for the financial statements:**

Management of the company is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards (IFRS), Mauritius Companies Act 2001 (Act no. 15 of 2001) and provisions of the memorandum of association of the company. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

**Auditor's responsibility:**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on auditor's judgment, including the assessment of the risk and material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion:**

In our opinion, the financial statements, present fairly, in all material respects, the financial position of ASI Global Ltd., as at 31st March 2016, its financial performance, changes in equity & shareholder's funds and cash flows for the year then ended and were prepared, in accordance with International Financial Reporting Standards (IFRS).

**Emphasis of matter:**

Without qualifying our opinion we draw your attention to the following:

- Investment in subsidiary and amount due from related party are stated at cost. Management has represented that based on financial projections of the subsidiary, the present value of projected profits exceeds the carrying value of said investments and hence is not required to be impaired.
- These financial statements of the company are prepared on stand-alone basis and consolidated financial statements are issued separately on May 22, 2016 (Ref: S/RP- 2298/2016).
- Current year figures are for a period of 366 days as against previous period figures which are for 317 days and hence not comparable to that extent.

**Report on other matters:**

We confirm that, in our opinion

- we have obtained all the information & explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
- proper books of account have been maintained by the company as far as appears from our examination of those books;
- financial statements and the contents of the directors' report are in agreement with the books of account; and
- to the best of our knowledge and belief, that there were no violation of the provisions of the Mauritius Companies Act 2001 (ACT no. 15 of 2001) and memorandum of association of the company that would affect materially the working or the financial statements of the company.

**3.3 Investment in subsidiary:**

Investment in subsidiary represents investment by the company, to enhance the company's business interest or to effectively utilize the surplus resources. Investments are classified as either long term or short-term, based on the intention of the management, at the time of their purchase.

Investment in subsidiary represents amount invested in 9,900 equity shares (i.e 99.00% beneficial ownership) of M/s. Al Rawasi Rock & Aggregate LLC, Fujairah (U.A.E.). Out of 99.00% beneficial ownership, 48.00% are legally owned by the company and remaining 51.00% though legally owned by Fujairah International Trading Co. L.L.C, Fujairah (U.A.E.), are beneficially owned by the company wide management and trust agreement dated 27th October 2014.

Investment in subsidiary is stated at cost. Management has represented that based on financial projections of the subsidiary, the present value of projected profits exceeds the carrying value of said investments and hence is not required to be impaired.

**3.4 Property, plant & equipment:**

The company did not have any property, plant & equipment during the year under review.

**3.5 Financial instruments:**

The company recognizes a financial instrument (being a financial asset or financial liability) only when the company becomes a part of the contractual provisions of the instrument.

Accounting policy relevant to each type of financial instrument is as follows:

- **Cash & cash equivalents:**

Cash & cash equivalents comprise balance with banks in current accounts.

- **Other financial assets:**

Other financial assets are recognised initially at transaction value and subsequently measured at amortised cost using the effective interest method less impairment. However, all other financial assets have a value on realization in the ordinary course of the company's business, which is at least equal to the amount at which they are stated in the statement of financial position.

**ASI Global Ltd.**

**Port Louis (Mauritius)**

Notes to the financial statements for the year ended 31st March 2016

- **Other financial liabilities:**

Other financial liabilities, including borrowings, are initially measured at transaction value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

A financial asset (or where applicable a part of a financial asset or a part of group of similar financial assets) is de-recognised either when:

- the rights to receive cash flows from the asset have expired or
- the company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- the company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the company has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the company's continuing involvement in the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of comprehensive income.

Financial assets and financial liabilities are only offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and the company intends to settle on a net basis.

**3.6 Impairment of non-financial assets:**

At each reporting date, the company reviews the carrying amounts of its non-financial assets, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately. Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

**3.7 Impairment of financial assets:**

An assessment is made at each reporting date to determine whether there is objective evidence that a specific financial asset may be impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial assets or the group of financial assets that can be reliably estimated.

**ASI Global Ltd.**

**Port Louis (Mauritius)**

Notes to the financial statements for the year ended 31st March 2016

If such evidence exists, any impairment loss is recognised in the statement of comprehensive income. Impairment is determined as follows:

- For assets carried at fair value, impairment is the difference between cost and fair value, less any impairment loss previously recognised in the statement of comprehensive income;
- For assets carried at cost, impairment is the difference between carrying amount and the present value of future cash flows discounted at the current market rate of return for a similar financial asset;
- For assets carried at amortised cost, impairment is the difference between carrying amount and the present value of estimated future cash flows discounted at the financial assets original effective interest rate.

Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the financial asset no longer exist or have decreased and the decrease can be related objectively to an event occurring after the impairment was recognised.

**3.8 Provisions & contingencies:**

Provisions are recognised when the company has a legal or constructive obligation as a result of past events and it is probable that an outflow of economic benefits would be required to settle these obligations and a reliable estimate of the same can be made.

A disclosure of contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When likelihood of outflow is remote, no provision or disclosure is made.

**3.9 Revenue recognition:**

Revenue is recognized when it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured at fair value of consideration received or receivable, excluding discounts, rebates and duties.

During the year under review it has earned income by way of interest on amount due from subsidiary and incurred expense by way of interest on amount due to its parent company & amount due to others.

Interest income is accounted on effective yield basis.

**3.10 Expenditure:**

Expenses are accounted for on the accrual basis and provisions are made for all known losses and liabilities. Expenses are presented in the statement of comprehensive income, classified according to the function of expense.

**3.11 Foreign currency transactions:**

- a. Transactions in foreign currency, if any, are converted into functional currency at prevailing exchange rate on the date such transactions are entered into.
- b. Monetary assets and liabilities denominated in foreign currencies are translated into functional currency at the exchange rates prevailing at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies which are stated at historical cost or fair value, are translated into functional currency at the exchange rates prevailing on the date of such transaction or the date of determination of fair value respectively.
- c. Resultant loss or gain has been recognized in the statement of comprehensive income, in the year in which such assets are realized or liabilities are discharged.
